PRODUCT: #191 UNI-DIRECTIONAL, GLASS REINFORCED FILM STRAPPING TAPE

DESCRIPTION: A transparent, high tensile, high adhesion, medium impact strength, rubber based pressure sensitive tape designed for your most critical packaging applications. High strength fiberglass strands are securely bonded to tough, durable polypropylene film backing by our unique laminating process, which insures full utilization of the tape roll without backing failure due to strand delamination or edge unraveling. Smooth, clear, rubber based adhesive is applied to give an even spread, which insures full surface contact for maximum holding power.
